

# Call for Papers, Workshops and Tutorials

University of Tehran  
and

International Society for Photogrammetry, Remote Sensing (ISPRS)

cordially invite you to the

## ISPRS International Joint Conferences of

Geospatial Information Research (GI Research)

Sensors and Models in Photogrammetry and Remote Sensing (SMPR), and

Earth Observation of Environmental Changes (EOEC)

(7-10 October 2017, Tehran – Iran)

The ISPRS joint conferences of GI Research, SMPR, and EOEC aim to bring together scholars from various disciplines in order to interact and exchange knowledge, experience, and ideas about GIScience, Geoinformatics and environmental changes through offering a wide range of scientific speeches, workshops and tutorials.

**Topics:** We invite contributions in the following general areas:

- Geospatial Information System, Remote Sensing, Photogrammetry, and Geodesy for data acquisition, storage, modeling and analysis of spatial data and information
- Spatial information and earth observation for environmental monitoring, natural hazards, and disaster management

For more details on conference topics, please visit the [conference website](#).

**Submission:** We invite the following types of contributions:

**Full papers** – to present significant scientific results. Full papers will be peer reviewed. If accepted, you are invited to give an oral or poster presentation at the conference, and the full paper will be published in ISPRS Archive. Selected full papers will also be considered for publication in the [International Journal of Earth Observation and Geospatial Information](#).

**Work in progress** – to present ongoing research. Submissions will be peer reviewed. If accepted, you are invited to give an oral or poster presentation at the conference, and an extended abstract or full paper (your choice) will be published in the conference proceedings.

**Formatting and Guidelines:** Please submit your contributions according to the [ISPRS formatting](#) and [conference guidelines](#) (see conference website).

**Workshop and Tutorials:** The first day of the conference is devoted to a wide range of workshops and tutorials. We invite you to [submit](#) proposals for workshops and tutorials on all topics of interest to conference attendees. Workshop and tutorial organizers will be awarded reduced registration fees.

## Important Dates:

Full paper submission due	30-04-2017
Work in progress submission due	30-05-2017
Full paper acceptance notification	15-07-2017
Work in progress acceptance notification	30-07-2017
Camera-ready submission of full papers	30-07-2017
Camera-ready submission of work in progress	15-08-2017
Early conference registration due	15-08-2017
Workshops and tutorials registration due	15-09-2017
Workshops and tutorials	07-10-2017
Conference	08 to 10-10-2017
