

International students about us

Nuriddin Musurmonov, Uzbekistan:

I came here to improve my knowledge of physics and to learn more about Russian culture. When I arrived, I had no idea that I would find a new family in the student dormitory of Volgograd State University. Thanks to the fact that students from many different countries lived next to me, I was not only able to immerse myself in Russian culture, but also enrich my experience by communicating with students from different parts of the world.

Qin Yaqi, China:

Volgograd captivated me with the embankment, sunsets, stories of local residents and warm meetings with friends. Difficulties have taught me independence, and the exchange gave me not only knowledge, but also a new way of looking at the world: cultural differences are not an obstacle, but a window into the wider world. I thank Volgograd State University for its invaluable experience. Volgograd has become my home, and I am looking forward to return here

Ratomskaya Viktoryia, Belarus:

The educational process is organized at a high level: the teachers are real professionals and mentors, and the Department of "Service and Tourism" has a warm and friendly atmosphere. Learning a second language

Chinese, has become especially valuable to me, which has significantly expanded my horizons. The comfortable hostel helped me to adapt quickly, and the rich history of Volgograd, Mamaev Kurgan and communication with local residents gave me invaluable intercultural experience and new friends.
